

## Time and date

11.00am to 1.00pm, Friday 12 February 2021

## Attendees

### CEG

Dan Byles  
Nigel Cornwall  
Jeff Hardy  
Ralitsa Hiteva  
Phil Lawton  
John Hargreaves  
Nick Pollard  
Ann Bishop

### UK Power Networks

Mark Norman  
Max Taylor  
Sam Bould (KPMG)

## Agenda

11.00am	Introduction
11.10am	Commitment overview
12.30am	Overview of environmental action plan research
12.50am	AOB

## Meeting summary

UKPN and the SWG met to discuss:

- (i) An introduction to proposed commitments within the RIIO-ED2 plan around the environmental protection (achieving net zero); and
- (ii) An overview of the customer research findings and how these had supported the development of the commitments.

## Discussion

Key discussion and steer focused on:

- (i) The group discussed commitments around air pollution and how Ofgem's thinking had evolved around environmental regulation (including UKPN's leading role in pushing science-based targets);
- (ii) The group discussed commitments around the supply chain, and how UKPN are working to promote supply chain decarbonisation, including steer on how to deal with smaller suppliers;
- (iii) The group discussed commitments around biodiversity and plans supporting improvement of this across UKPN's network for ED2; and

- (iv) The group discussed the customer research and how much credence UKPN were placing on the findings of the different engagement phases.

### **Actions and next steps**

**Action** – UKPN to consider providing more detail on engagement with key supply chain partners around decarbonisation and biodiversity improvement.

**Action** – UKPN to share engagement discussion guides for Phase 3 and Phase 4 with the group.

**Action** – UKPN to provide further information on CVPs and ODIs in respect of the EAP.
